Nothing actionable. The Corps are notifying the applicant that they will not authorize a permit for the current proposal. In the letter, they agreed with EPA's position that the proposal would cause violation of water quality standards, that current mitigation is not sufficient for the impacts, and they also found that the proposal will not be in the public interest due to impacts to cultural resources and traditional cultural properties relevant to tribal interests.

Hi, Justin. Please digest this and if it's anything really noteworthy plan on reporting in on it for Rob at 11. If not, just let us know. It's Rosemont, and Elaine will handle over time, of course, but Rob wants this tracked carefully for obvious reasons so I'm erring on the side of you looking at this. (Megan's tied up on a Dakota Access fire drill.) Thanks much.
